THE INDIAN LAND QUESTION.

Those who have been constant readers of this journal during the last five years will bear witness to the faithfulness with which we have urged upon the Government the duty they owe to the aboriginal tribes, and the importance of the early inauguration of a decided Indian policy. We have also endeavored to impress upon the Executive the necessity of laying off suitable reserves for the use of the various tribes in the different localities in which they live: That our advice was not taken, the present condition of the question abundantly and painfully demonstrates. Nothing whatever was done in the matter by our first Governor until just before his abdication, and what he did then had much better have been left undone. Surveyors were sent out with instructions to lay off reserves *under the direction of the Cheifs of the various tribes!* What was the result of a step so injudicious and unusual? The Okanagan Indians are the possessors of more thousands of acres than they themselves are units. On the Thompson "St. Paul" and his people, perhaps 50 in all, hold the entire tract of country from opposite Fort Kamloops to little Shuswap lake, with a frontage of 40 miles upon the Thompson! This is considered to be the best range of land in British Columbia, whether for grazing or agricultural purposes, and gives nearly a mile frontage for each Indian, men, women and children, all told. And what use are they making of it? They have leased the entire range to Mr. Jerome Harper as a stock range, for the nominal sum of $25 a month, and are themselves living on the opposite side of the river. Thus one of the most valuable ranges in the country is locked up, and any one who attempts to cut hay or otherwise make use of any portion of it is hunted off by the Indians. We might refer to similar evils in many other localities, but let it suffice to allude to the case of the Lower Fraser, where miles and miles of the choicest of the land along the river is locked up in the same way, and to such an extent as seriously to retard settlement. And this is the legacy, in the form of an Indian policy, bequeathed to us by Sir James Douglas. It is only fair to the present Government to say that several attempts have been made within the last two years to undo the mischief, and we are happy to say, not altogether without success, in so far as the Okanagan reserve is concerned. But, it is a most delicate and dangerous thing to reclaim land once given to Indians by the Governor. They are naturally jealous of the encroachment of the whites, and to give them land one year and ask them to relinquish it the next, has very much the appearance of breaking faith with them, and is in much danger of creating trouble. Yet the difficulty and danger with which the matter is surrounded, should not deter the Government from discharging so obvious a duty to the settlers, and one so intimately connected with the progress of the Colony. We yield to no one in a jealous regard for the rights and interests of the natives; but we cannot consent, under the color of an imaginary right, to see large districts of our most valuable lands locked up, and good settlers discouraged and driven from the country in disgust. Let the Indians have all the land they can make a good use of, and nothing more; and let a proper survey of their lands be made as soon as the circumstances of the Government will admit, so that a final end may be put to this prolific source of trouble and discontent; for, depend upon it, the longer the evil is left untouched the more difficult will it be to grapple with it.

THE ANNEXATION BILL.

Elsewhere will be found a copy of the Imperial Bill providing for the annexation of Vancouver Island to British Columbia. The Bill was read a first time in the House of Commons on 11th June, and ordered to be printed; but whether it passed through all its stages before the 28th, is a matter of doubt. If not, it is reasonable to suppose that the more absorbing topics and arrangements consequent upon the outgoing of one Ministry and the incoming of another would have had the effect of materially retarding its progress, and it is just possible that the new Ministry would be too much occupied with the consideration of the best mode of prolonging its own ricketty life to attend to a matter so utterly insignificant in the Imperial eye; and yet it may be hoped that our Governor, who is waiting for the passage of the Bill, will have been enabled to secure for it the attention of the Government. It will be observed that the Bill differs little from the outlines we gave of it several months ago—that it simply annihilates Vancouver Island and its political institutions and pretensions, making that little Colony an integral part of British Columbia. With a Bill so defective in details very much is left to conjecture. The question of the seat of Government is not raised; and the reason is obvious enough. British Columbia has a capital established by legal enactment. The addition of Vancouver Island is a circumstance which calls for no change, and can in no way raise the question of the capital. This Bill, the result of the unconditional union resolutions passed by the Victoria Legislature, will doubtless prove a bitter pill to our Victoria neighbors. The *Chronicle* of yesterday makes wry faces over it, and protests that the people can't swallow it, that they *won't* take it. Our neighbors must remember, however, that if there be any blame in the matter it lies at their own door. This Colony never asked for union, did not want union, does not want it yet; but the people of Victoria have been importuning the Imperial Government so long, and whined so piteously, that it at length took compassion upon them, and offered them precisely what they asked for. They asked to be united to this Colony upon such terms as the Imperial Government might think fit; and now, when it is too late, they would retreat and dictate their own terms to both the Imperial Government and our own! "Beggars can't be choosers." We don't want you, Vancouver; but if you must be foisted upon us as a mendicant, don't imagine that you are going to have it all your own way. It concerns us little whether the Island Legislature accepts or rejects the offer. This Colony, as we have said, seeks no such union, has nothing to gain by such a connection; but if it must be thrust upon us, we imagine it cannot do us much harm upon the terms set forth in the Bill.

THE UNION BILL

A BILL FOR THE UNION OF THE COLONY OF VANCOUVER ISLAND WITH THE COLONY OF BRITISH COLUMBIA.

Prepared and brought in by Mr. Edward Foster and Mr. Secretary Cardwell.

Ordered by the House of Commons to be printed, 11th June, 1866.

Be it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

1. This Act may be cited as The British Columbia Act, 1866.

2. In this Act the term Governor means any Officer for the time being lawfully administering the Government.

3. The Governor of British Columbia after receiving an address from the Legislative Council of British Columbia, requesting that this Act should be proclaimed by him, and after having been officially informed that Addresses to the same effect have been adopted by the Legislative Council and Legislative Assembly of Vancouver Island, shall proclaim the same accordingly.

4. From and immediately after the Proclamation of this Act by the Governor of British Columbia, the Colony of Vancouver Island shall be, and the same is hereby united with the Colony of British Columbia, and thenceforth those two Colonies shall form and be one Colony, with the name of British Columbia (which Union is in this Act referred to as the Union.)

5. On the Union taking effect, the form of Government existing in Vancouver Island as a separate Colony shall cease, and the power and authority of the Executive Government and of the Legislature existing in British Columbia, shall extend to and over Vancouver Island; but in order that provision may be made for the representation of Vancouver Island in the Legislature of British Columbia after the Union, shall, until it is otherwise provided by lawful authority, be twenty-three instead of fifteen.

6. After and notwithstanding the Union, the laws in force in the separate Colonies of British Columbia and Vancouver Island, respectively, at the time of the Union taking effect, shall, until it is otherwise provided by lawful authority, remain in force as if this Act had not been passed or proclaimed; save only that the laws relative to the Revenue of Customs in force in British Columbia at the time of the Union taking effect, shall, until it is otherwise provided by lawful authority, extend and apply to Vancouver Island; and, until it is otherwise provided by lawful authority, the Governor of British Columbia shall have, in relation to the territory for the time being under his Government, all the powers and authorities for the time being vested, in relation to the United Kingdom in the Commissioners of Her Majesty's Treasury or in the Commissioners of Customs, with respect to the appointment of warehousing ports, and the approval and appointment of warehouses or places of security in such ports, and everything consequent thereon or relative thereto.

7. Nothing in this Act shall take away or restrict the authority of the Governor of British Columbia, with the advice and consent of the Legislative Council thereof, to make laws for the peace, order and good government of British Columbia either before or after the Union; nor shall anything in this Act interfere with the exercise of any power that would have been exerciseable by Her Majesty in Council if this Act had not been passed.

8. Until the Union, British Columbia shall comprise all such Territories within the Dominions of Her Majesty as are bounded to the South by the Territories of the United States of America, to the West by the Pacific Ocean and the Frontier of the Russian Territories in North America, to the North by the Sixtieth Parallel of North Latitude, and to the East from the Boundary of the United States Northwards by the Rocky Mountains and the One hundred and twentieth Meridian of West Longitude, and shall include Queen Charlotte's Island and all other Islands adjacent to the said Territories, except Vancouver Island and the Islands adjacent thereto.

9. After the Union, British Columbia shall comprise all the Territories and Islands aforesaid, inclusive of Vancouver Island and the Islands adjacent thereto.

The Acts described in the Schedule to this Act are hereby repealed; but this Repeal shall not invalidate any Order in Council or other Instrument issued under the Authority of those Acts or either of them, or any Act done or right or Title acquired by virtue of those Acts or of either of them or of any such Order or Instrument.

SCHEDULE.—*Acts Repealed.*—An Act to provide for the Government of British Columbia; An Act to define the Boundaries of the Colony of British Columbia, and to continue an Act to provide for the Government of the said Colony.

LAID OVER.—An interesting letter from Mr. R. McLeese, well known in this city, upon the Canyon Creek diggings, is unavoidably laid over till next issue.

BREAK IN THE CHAIN-GANG.

THE CAPTURE.

A somewhat serious break took place in the chain-gang while at work at the Cricket Ground, on Wednesday. The circumstances were substantially as follows:—Constable Macnamara having occasion to proceed to Burrard Inlet to secure an Indian, believed to be connected with the Pandora street murder at Victoria, a Mr. Andrews was employed to supply his place. The main body of the gang was at work under Constable Edwards, while two convicts, Gartland and Ross, were a little distance off, in charge of said Andrews. Watching their opportunity, and doubtless acting upon the assumption of his inexperience, the two men set upon their keeper, threw him down and, possessing themselves of his rifle and revolver, made for the river. On reaching the water they got into an Indian canoe and pulled for the opposite shore. There being considerable sea at the time the canoe swamped about midstream, when three Indians started out whether for the purpose of rescuing the two men from their perilous position, or, knowing that they were convicts and intending to capture them, does not very clearly appear. The Indians claim to have been actuated by the latter motive; but they may be crafty enough to see on which side the bounty-money lay. They took the men into their canoe, and were offered $10 to take them to the other side. This they refused to do, whereupon the convicts made a furious attack upon them with paddles which they held in their hands. Two of the Indians took to the water to avoid the well-directed blows of the convicts, the third one remaining in the canoe for some time, although receiving a most unmerciful beating all the while, his left arm, to use the words of the High Constable, being "pounded into a jelly." His two companions advised him to capsize the canoe in order to end the unequal contest, which he did, precipitating the convicts along with himself into the "chuck." They clung to the canoe for some time, when Mr. Geo. Hand reached the spot with a large canoe. Gartland begged to be taken in, but Mr. Hand placed both in another canoe and had them conveyed to the city, where they were welcomed back by a very large concourse of people, and conveyed to the jail by the proper officers. They were brought up on Thursday morning before the magistrates, and examined. Gartland said he was vexed and sick, that he was kept more constantly in irons than his fellows, and wished to get off. Ross declined to make any statement. They were sent back to jail and will, we presume, be tried at the fall assizes. Gartland is the man who was convicted at the spring assizes of stealing gold from the dump box of the Ericcson Company, and Ross is one of the three Lytton burglars, convicted at Yale some months ago. During the confusion consequent upon the break made by these two men, Burk, an old convict, managed to slip away, and up to the present time has not been captured.

In concluding these remarks we would put it to the authorities whether it would not be better every way to find employment for the chain-gang nearer to the prison. By taking them out of town, and into the woods, as is sometimes done, the facilities for escape are greatly increased, while going back and forward between the prison and their work occupies much time, which might be more profitably employed.

FARMING ON THE CHILLIWHACK AND SUMASS.

Mr. Thomas J. Marks, of Chilliwhack, has sent us samples of barley, wheat, timothy and oats, taken from his broad acres, all of which are as fine specimens as could be produced in any country. The oats stand 6 feet 9 inches high, the timothy 6 feet, the wheat 5 feet 10 inches, and the barley 3 feet 10 inches. The grain is large and plump. Mr. Marks writes: "As you are so great an advocate of the agricultural interests of this Colony, you will be glad to hear that the crops on the bottom lands of the Chilliwhack and Sumass are excellent both for cereal and root crops. This is the first season that we have had an opportunity of thoroughly testing the quality of the soil here, and I find that we can grow as good and as heavy crops of grain as can be produced in any other temperate climate in the world, with the exception of fall wheat, which is liable to be thrown out of the ground by the alternate thaws and frosts during the early spring. Almost all kinds of garden vegetables do extremely well. I hope to be able to send you samples of them when they mature in the fall. Mr. Chas. Evans, my nearest neighbor, can show grain as stout as my own, and my other neighbors, Mr. Wm. Hall, late of the Royal Engineers, Mr. Sweetman, Mr. Blanshard, Messrs. Reece & Co., Mr. Howell, Mr. Bertrand, and Mr. Cooper, on the Chilliwhack, can all show vegetables and grain of great excellence. On the Sumass it would please you to see the Messrs. Chadsey's dairy operations, as well as their stock and splendid crops. They quite outdo every other settler there. Mr. York, late of Yale, has recently settled here with his wife and family. His, I believe, is chiefly a dairy and stock farm. He has a good deal of stock, and is doing well. Mr. Thomas Lewis, another new settler, whose wife is coming out from England to join him, is commencing as a stock farmer. Mr. Anderson, who has a butcher establishment in the capital, has also a good ranch; and last, though not least, Messrs. Wilson, Vedder and Colinson have all excellent crops." Mr. Marks sends, in addition to the above mentioned samples of grains, a bundle of rhubarb, from seed brought out from Canada.

THE FIRE DEPARTMENT.

The Hyack Company met in their hall on Wednesday evening, Captain Johnston in the chair. The Hon. C Brew was nominated as an honorary member of the company, and was elected by acclamation. Mr. James Syme was nominated as an active member of the company, and, having been ballotted for, was declared elected by a unanimous vote. After the transaction of some ordinary business, the meeting was adjourned till the following evening, being the annual meeting for the election of officers.

THE ANNUAL MEETING.

The annual meeting of the company was held in their hall on Thursday evening, Capt. Johnston in the chair, when the following officers were elected:

Captain—Wm. Johnston; *1st Lieutenant*—G. C. Clarkson; *2d Lieutenant*—E. Jenkins; *Secretary*—J. S. McMillan; *Treasurer*—J. S. Clute; *1st Branchman*—Wm. Vienna; *2d Branchman*—Jas. Wise; *3d Branchman*—Thos. Walsh; *Engineer*—H. Waters; *Room Committee*—Messrs. McMicking and Johnston; *Finance Committee*—Messrs. Stodard, Harvey and Hick. After the usual votes of thanks to the officers who served last year, several candidates for membership were proposed, when the meeting adjourned.

FATAL ACCIDENT.—A very simple but serious accident happened on the night of Saturday last at Mr. York's, Sumass, by which a man of the name of James Taylor lost his life. Taylor was hired by Mr. York, and had gone out on Saturday night, along with another man, to sleep upon some boards which were placed upon the joists of a new barn, in course of erection. During the night the man, who was sleeping in another part of the building, was awakened by a heavy fall, and going over to where Taylor was, he found that the poor fellow had fallen off the boards to the ground, and although the fall was only some seven feet, his neck was broken. The alarm was given when Mr York sent information to Coroner Jones, who instructed him to have the body conveyed to this city. An inquest was held upon the body on Tuesday, and a verdict returned in accordance with the circumstances. Taylor was a native of Suffolk, England, aged 34 years.

PRESBYTERIAN CHURCH AT NANAIMO.—The new Presbyterian Church at Nanaimo was formally opened on Sunday week, the Rev. D. Duff, of this city, preaching both morning and evening to large and attentive congregations. The Rev. Mr. Jamieson, pastor of the congregation, assisted in the services. A collection was taken up on the occasion amounting to $90. The church is described as a very pretty building, upon a beautiful site, hard finished throughout, and well pewed. It is calculated to seat 150 persons, and there is only a debt of $300 remaining upon it. This speaks well for the Presbyterians of Nanaimo, and for the ministrations of their esteemed pastor, who has been little more than a year amongst them. We are gratified to hear that Mr. Jamieson's labors have met with so much acceptance, and are being crowned with so large a measure of success.

STILL AT LARGE.—Burk, the convict who escaped from the chain-gang, on Wednesday, is still at large. He was seen by the constables on Thursday, in the neighborhood of the Rifle Butts, Brunette, and fired at as he took to the woods. The fellow appears determined to hold out, although the chances of final escape must be small. It appears to us that his capture is hardly of such importance as to justify the officers in shooting down the poor wretch. We understand that it was in contemplation to recommend his release to to the Executive; but the foolish act of breaking away will exclude him from Royal clemency, we fear.

NEWSPAPER FAVORS.—We have to thank Mr. Turner, Wells, Fargo & Co.'s agent on the steamer California, for files of California papers.

VICTORIA ITEMS.

From files of the Victoria papers we glean the following:—Capt. Stamp's new tug steamer was launched a week ago. It is described as a handsome side-wheel steamer 146 feet keel, 24 feet beam and 9 feet in hold. She was christeded Isabel, by Mrs. Shepherd, wife of the manager of the Bank of British North America....The Sabbath School in connection with the 1st Presbyterian Church held a pic-nic yesterday week, at which 250 children were present. The occasion was highly interesting and eminently successful....The completion of the Atlantic telegraph was celebrated with much enthusiasm. The Volunteer Companies were paraded, and the assemblege was addressed by the Governor. The accounts from Leech River mines are more encouraging, and public attention is said to be turning in that direction. One company represent their claim as paying at the rate of $35 a week to the hand, and a number of claims are said to be yielding $2 a day, by carrying the dirt some distance to be washed. An appropriation of $4000 has been voted by the Legislative Assembly for the purpose of completing a ditch, which, when completed, it is hoped will enable a large extent of ground to be worked with advantage....The House in Committee recommended the removal of the Dredging Machine to some fresh water stream to prevent destruction by marine accumulations. The *Chronicle* suggests it should be sent to the Fraser river to dredge for gold....Mayor Franklin transmitted a complimentary dispatch to the Mayor of London. The message was 30 words, and cost $150....In the House of Assembly the resolutions for creating a responsible Upper House were killed, and on the following day the want of confidence resolutions were killed also! What a mess—what a contemptible farce!

ENGLISH NEWS.

The mail steamer which arrived yesterday from San Francisco puts us in possession of English Exchanges of the 17th June, from which we glean the following:—

The marriage of Princess Mary of Cambridge and Prince Teck was solemnized at Kew Church, in presence of the Queen, on the 12th....The Queen, accompanied by several members of the royal family, left Windsor Castle on the 13th, en route for Balmoral. The Court was expected to reside in the Highlands until about the 27th, when the Queen and Royal Family would return to Windsor Castle, where they would remain till the marriage of Princess Helena....On the 11th the Prince of Wales performed the ceremony of laying the foundation stone of the new building of the British and Foreign Bible Society in Earl street, Blackfriars. From a paper read upon the occasion, it appears that during the sixty-two years of the Society's existence it has expended nearly £6,000,000 in the furtherance of its objects, the receipts for last year alone being £171,375.

ECCLESIASTICAL CHANGES.—The last mail steamer brings out the decision of the Missionary Committee in Canada with respect to the stationing of the Wesleyan missionaries in these Colonies. The recommendations of the District meeting are confirmed, and in pursuance thereto the Rev. Dr. Evans goes to Nanaimo, the Rev. Mr. White comes to New Westminster, the Rev. Mr. Browning remains at Victoria, and the Rev. Mr. Robson goes to Canada. Mr. White will meet with a warm welcome at his old station—the scene of his early and eminently successful labors on this coast. Mr. Robson and family sail for Canada by the California.

ARRIVAL OF THE MAIL STEAMER.—The mail steamship California, Capt. Williams, arrived from San Francisco at half-past two o'clock, p. m., yesterday. She brought a few passengers and considerable freight. She will sail for San Francisco at 2½ o'clock, p. m. to-day, and the mail will close at 2 o'clock. We understand nearly all the berths are secured by Victorians—rats leaving the sinking ship!

FROM YALE.—The Lillooet and Onward arrived from Yale on Thursday, bringing up-river expresses for Dietz & Nelson and a few passengers. There is little news from the interior. Mr. Fiterre, of the firm of Grelly & Fiterre, Victoria, arrived from Big Bend. He speaks very highly of the diggings there.

EXTENDED.—The mail subsidy between here and California has been renewed with the same company upon terms very much more favorable to the Colony. This is a wise step and proves that the policy of our Government is more liberal and enlightened than some persons gave credit for.

RETURNED.—Amongst the passengers by the mail steamer, we observed Capt. Dodge, who, we are glad to hear, has succeeded in coming to an arrangement with his creditors. Capt. Dodge was warmly welcomed back. May he long remain with us.

TELEGRAPHIC.

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

EASTERN STATES.

NEW YORK, July 29.—Subsequent dispatches from Field, giving particulars of the voyage, say: The Irish shore end of the cable was laid on Saturday morning, July 7th; on the 13th the cable was put on board the Great Eastern and buried in 94 fathoms of water; distant 27½ miles from Valentia Telegraph House. At 2:30, p. m., on Friday, 13th, the Great Eastern and her consorts started for New Foundland. The average speed of the ships from the time the splice was made until they saw land was less than five nautical miles per hour. The total slack was less than 12 per cent. The weather has been more pleasant than ever known on the Atlantic at this season. The total distance is 1,669 miles, and cable paid out 1,864 miles. We have been in constant communication with Valentia since the splice was made. The line will be open for business in a few days, and, after taking in coal the telegraph fleet will sail for the spot where the cable was lost last year, and recover the end and complete the ground line.

NEW YORK, July 30.—No private messages have reached us over the cable. The news reports already sent came through C. W. Field and James Redpath, of the *Tribune*, who is on board the Albany. The distance to be traveled by the news yacht is 80 miles.

WASHINGTON, July 29.

TO CYRUS W. FIELD,

Heart's Content.

I heartily congratulate you, and trust your enterprise may prove as successful as your efforts have been persevering. May the cable under the sea, tend to promote harmony between the Republic of the West and the Governments of the Eastern Hemisphere.

(Signed), ANDREW JOHNSON."

NEW YORK, July 30.—There were eleven cases of cholera in this city yesterday and six to-day.

CHICAGO, July 29.—Congress was adjourned at 3 o'clock on Saturday afternoon, after a continuous session of thirty hours.

NEW YORK, August 1.—An offer was made to-day by private parties to supply the Stock Exchange and Gold Room with London quotations at $1000 per month.

Fifteen cases and six deaths in this city and eighteen cases and five deaths in Brooklyn, by cholera to-day. Three deaths are reported among the troops on Governor's Island last night, including Lieutenant Wright.

CHICAGO, August 1.—The President to-day presented General Sherman with his commission as Lieutenant-General of the armies of the United States. Gen. Grant was present when the commission was signed and delivered.

General Eckert, Assistant Secretary of War, appointed and confirmed last week, sent in his resignation to accept the position of General Superintendent of Telegraph Lines from Norfolk, Virginia, through New England to the end of the Atlantic Cable on this Continent.

NEW YORK, July 31.—Business messages are being transmitted over the cable to Europe. Four thousand words were transmitted through the cable in 12 hours on the 28th inst.

NEW YORK, Aug. 2.—Since the 22d ult., there have been 30 cases and 21 deaths from cholera on Blackwell's Island; from the 29th to the 31st ult., there were 62 cases and 26 deaths on Ward's Island; in the city yesterday 21 cases and 9 deaths; and on Governor's Island yesterday several cases and five deaths. The epidemic is on the increase in Brooklyn.

NEW YORK, Aug. 2.—The *Post's* money article says, very lively movements prevail in stock exchange to-day. Government stocks steady but inactive; cotton dull; prices easier; flour dull at 10c@10½c lower; corn 1 cent lower. After the Board the old 5-20's were ⅜ better, supposed to be owing to news by cable, but no public news transpired to-day. Twelve messages were entered to-day for Europe—receipts $1,313 in gold.

EUROPEAN.

FARTHER POINT, July 28.—The steamer Peruvian brings dates to July 20.

Consols closed at 88¼ @ 88½ for money, 5-20's 69¾ @ 70. Cotton quoted at 14½d. lower; sales of 7100 bales.

The bullion in the Bank of England had decreased £347,000.

The *Moniteur* says Prussia has consented to abstain from hostilities for five days, provided Austria would give her decision on the basis of peace proposed within that time.

NEW YORK, July 29.—The following was received by the Peruvian:—

The Prussians commenced a regular siege of the Fortress of Mentz. An engagement took place before Olmutz on the 17th, in which the Austrians were defeated with the loss of sixteen guns. The Austrians were making a rapid retreat out of Morakia.

The *Herald* has the following:

LONDON, August 1.——A great meeting was held to-day, at which three hundred thousand people were present. Resolutions were adopted declaring they had no faith in the Government, and petitions were read, which are to be presented to Parliament, demanding an inquiry into the conduct of Sir Richard Mayne, Chief of Police. The procession was immense. Several bands of music were in attendance, and everything passed off quietly.

The *Tribune* has a special dispatch which says peace was believed to be certain at Berlin on Saturday. Bismarck and the King will return this week. Prussia carries all her points.

Riots in Hyde Park and movements to form an exclusive Reform League, have imperilled the Derby Government.

CALIFORNIA.

SAN FRANCISCO, Aug. 2.—Gustavus and Charles DeYoung, publishers of the *Dramatic Chronicle*, have been arrested for publishing an alleged libellous article in regard to the burning of the United States Court Building in which it is intimated that the fire was the work of an incendiary, who desired to burn the Metropolitan Theatre, and that the incendiary was probably parties most interested in its destruction. The article was generally understood to refer to Mr. Maguire, of the Opera House and Academy of Music, who preferred the complaint.

Gold in New York yesterday, 148½. Sterling exchange 108⅜, dull. Legal Tenders 71.

THE INCOME OF WORKING MEN.

At the great meeting held the other day in favor of Parliamentary Reform, a speech was made by Mr. M'Laren, one of the members for the city, in which that gentleman displayed much of the singular penetration and vigorous judgment for which he has been so long distinguished. His address, while brief, literally crammed with thought and figures. The following passage is so remarkable that we give it entire:—

"The working classes were objected to as voters because they had no wealth, no capital, no stake in the country. He was very much struck by a speech delivered the other day at Derby by Mr. Bass, who was one of the greatest employers of labor in England, and who estimated that the working classes were the wealthiest of any single class in this country, having an income of 360 to 400 millions a year. Now, he was a little startled with this at first, but on thinking it over he was perfectly satisfied that Mr. Bass was right, and that if they took all the landlords in the country and all the mining interests—iron, coal and everything—and added the clergy as *quasi* land holders, and the whole of their tenants together, they would not amount to one half the income of the working-classes. Then, making an estimate for the four millions kept out, and taking their earnings at £50 a head, including the earnings of their families, that would be £200,000,000 a year as income to the outcast classes. (Hear and cheers.) Was not that a stake in the country, a great and delicate stake, a stake more easily injured than that in land or anything else? Take the peerage, as the head of all things in the country. There are 450 peers, and suppose each of them to have £10,000 a year, which would be a great deal over the mark, that would only give four and a half millions for the peerage; yet they had one House in Parliament entirely to themselves, and more than half of the other house to themselves, and here was a great battle being fought about admitting 100,000 or 200,000 men to give votes who probably would not influence ten elections in the country." (Applause.)—*English Paper.*

THE DIFFERENCE.—Matrimony is hot buck-wheat cakes, warm beds, comfortable slippers, smoking coffee, round arms, red lips, kind words, shirts exulting in buttons, redeemed stockings, boot-jack, happiness, etc. Hurrah!

Single blessedness is sheet-iron quilts, blue noses, frosty rooms, ice in the pitcher, unregenerated linen, heelless socks, coffee sweetened with icicles, gutte-percha biscuits, flabby steak, dull razors, corns, coughs, colics, rhubarb, misery, etc. Ugh!

Oliver Cromwell was a staunch Puritan, and could not brook the slightest approach to Popery. "What are these?" he once enquired, as he saw a dozen little statues in the niches of a chapel. "The twelve apostles," replied the trembling dean. "Take them down," said Cromwell, "and coin them into money, so that we may go about doing good."

TOYS AND FANCY GOODS.—G. C. Clarkson & Co. having made large additions of the above Goods to their stock, any one wishing to make a present would do well to give them a call, as they have a great variety of nice, neat and natty articles of vertu which are useful, and at the same time will please the eye and adorn a table or mantel-shelf. *

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance, and restore its normal and natural power to every organ, without inconvenience, pain, or any other drawback.

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful, as to astonish everyone. Its pre-eminence as a remedy for bilious and liver complaints, and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased.

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach, regularity to the secretions, and purity to the fluids. Vertigo, dimness of sight, and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend.

For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommend with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases; however inveterate, these medicines are a sovereign remedy. While the Pills act upon the, which they purify, the Ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous.

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthma has appeared, these Pills may be relied on as a certain and never-failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion.—Bilious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that, by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach, take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvements, though it may be gradual, will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague,	Female Irregularities,	Scrofula, or King's Evil.
Asthma,	Fevers of all kinds,	Sore Throats,
Bilious Complaints,	Fits,	Stone and Gravel,
Blotches on the Skin,	Gout,	Secondary Symptoms,

CURES AND COMFORT FOR THE BED-RIDDEN

—BY—

HOLLOWAY'S OINTMENT.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers, and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures. It heals by cleansing all animal fluids with which it comes in contact, and therefore promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible specifics.

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest, and back of the patient. It will soon penetrate and give immediate relief, in all stages of Influenza, Colds, and Bronchitis. This treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy, Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway's Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained.

Dropsical Swelling.

Beware of this dangerous and stealthy complaint, which frequently creep upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken, until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach; therefore, set to work earnestly, by taking Holloway's famous Pills according to the printed instructions, and rubbing the Ointment very effectively over the pit of the stomach and right side, where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Interal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone. The Pills greatly purify the blood, regulate its circulation renew diseased structures, and invigorate the whole system.

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed, twice a day, into the small of the back, over the region of the kidneys, to which it will gradually penetrate, and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore-throats,
Bunions,	Elephantiasis,	Skin-diseases,
Bite of Mosquitoes and Sand-flies,	Fistulas,	Scurvy,
	Gout,	Sore-heads,
Coco-bay,	Glandular	Tumors,
Chiego-foot,	Swellings,	Ulcers,
Corns (soft),	Lumbago,	Wounds,
Cancers,	Piles,	Yaws.
Chilblains,	Rheumatism,
